Secretary Of Labor Sees

LEWIS RENEWS
HIS DEMANDS

Makes Demand That A. F.
Of L. Reconsider His Six-
Point Program

(International News Service)
WASHINGTON, March 8.—The American Federation of Labor today agreed to consider a CIO proposal to set up an "American Congress of Labor" to take in all 10,000,000 organized workers of the nation.

The A. F. of L.'s statement that it would weigh the merits of the CIO plan "or any other suggestions" to end the three-year civil war in labor's ranks, came as peace committees representing both great labor organizations conferred on peace proposals.

Today's meeting was then recessed to meet in New York City at 8 p. m. Friday.

Sees Some Progress

Washington, March 8.—Secretary of Labor Frances Perkins today announced that the peace committees of the A. F. of L. and CIO, now meeting to end labor's three-year-old civil war were "making some progress."

She said she had been called into the meeting by the conferees for consultation on "a mere matter of mechanics." She stayed in the meeting a half hour and then emerged with the brief statement: "The negotiators are making some progress."

Lewis Renews Demand

Washington, March 8.—John L. Lewis, head of the CIO, today made a new demand on the American Federation of Labor for consideration of his six-point program for creation of an American Congress of Labor as a means of settling labor's three-year-old civil war.

Entering the second meeting of the presidentially-inspired peace conferences, Lewis said:

"It is our earnest hope that distinguished representatives of the American Federation of Labor give

PA NEW OBSERVES

Four N. Y. A. youths were digging out and throwing into trucks, earth from the west end point of the park on the Diamond, on Tuesday. Owen Fox, city forester, stated that the soil had become sour for lack of drainage, and not much good for growing. The excavation will be filled with a quantity of stone, and pipe, forming a French drainage, overlaid with a sufficient layer of good soil, having in it a proportion of sand. This is part of the work being done in preparation for spring sowing of grass and planting of flowers in the park.

A new sign at the end of the city line on West Washington street has been noticed. It reads: "Greater New Castle, City Limits."

A bit of evidence that proves that kite-flying days are here was seen in Union township Tuesday afternoon. A brightly striped kite was noticed lodged high in the telephone wires.

Hens in the New Castle district seem to have a knack for laying odd-shaped, and otherwise odd eggs. An oddly-marked egg was brought to Pa Newc this morning from the George Warso farm, R. D. 3, New Castle. One end of the egg has the appearance of having been stitched on, the "stitches" showing quite plainly on the shell.

WASHINGTON, March 8.—Plans for a congressional statement of policy on business apportionment were being considered on Capitol Hill today.

The movement started as members of the economy bloc privately expressed criticism of President Roosevelt's pronouncements for industrial recovery. Demands for additional aids to business and industry came after the president's apparent decision to stand on the program he had previously outlined.

Chief points of the president's program are his bid for peace between the CIO and A. F. of L. and his statements there will be no more new taxes and no more major legislation proposed by the White House at this session of congress.

May Place In Writing

The possibility of placing in writing a more detailed and extensive recovery program was being discussed informally by members of the

Unusual Accident Interrupts Service

Value Of Inter-Connected Power System, Duplicate Lines Demonstrated

Value of an inter-connected power system and duplicate transmission lines was demonstrated at 9:21 a. m. today when an insulator failed at the Cedar street sub-station, interrupting the 66,000-volt supply from the Lovellville, O. station, according to Pennsylvania Power company attaches.

A service interruption here was only momentary. A six-minute interruption occurred for Ellwood City and Zelenople. Radios in some sections of the city sustained interference for 50 minutes.

The unusual accident caused a piece of wire to fall into the main 66,000-volt section of the Cedar street sub-station, throwing a direct ground on the circuit.

Automatic relation and switching instructions from the Pennsylvania Power company's system operator permitted the transferring of the "load" from other lines and later, connecting in the emergency tie-in with the Duquesne Light company.

The are formed by the short circuit caused the radio interference. At noon operations had returned to normal with the emergency service of the Duquesne Light company discontinued.

Shaw Completes Duty As Highway Head Thursday

County Superintendent Notified His Term Ends Tomorrow Night

SUCCESSOR NOT
AS YET SELECTED

Retiring Highway Department Head Made An Excellent Record

John B. Shaw, superintendent of the state highways in Lawrence county since May 16, 1935, was today notified by telephone from the state highway department that his term as superintendent here is terminated as of Thursday night, March 9. His successor to the position has not been appointed.

Until such time as a superintendent is named Roy Dickson, who has been assistant superintendent for some years will act as the superintendent it was stated.

Started In May, 1935

Mr. Shaw came to the department in May 1935 and since that time has handled half a million dollars in resurfacing, constructing and reconstructing highways in this county. In addition he supervised 21 miles of WPA construction work and also acted as the state's agent in the construction of 15 projects constructed by outside contractors and costing a million dollars. These figures are exclusive of maintenance costs which total about one million dollars for the time Mr. Shaw has served.

In his term of service he completed the most outstanding safety record of any highway department in the United States, the department operating for over four years without a last time accident.

Mr. Shaw is the county chairman of the Democratic Party and in addition to his private work as the operator of a dairy in Washington township, expects to continue his interest in Democratic politics.

CAR LEAVES ROAD; PLUNGES INTO TREE

(International News Service)
ERIE, Pa., March 8.—Two men, one of them a state motor policeman, were killed instantly and a third man was badly injured early today when their car ramed a tree after leaving highway Route 20 near West Springfield.

The dead were James T. Donahoe, 26, a private in the Pennsylvania Motor police, stationed at the West Springfield barracks, and Joseph Keith, 40, West Springfield tavern owner.

The injured man was Joseph Zakdel, 22, also of West Springfield. Donahoe and Keith died of skull fractures and internal injuries. The trooper's home was in East Liberty. His body was shipped to Pittsburgh immediately.

Lieut. H. J. Rouse, of the motor police sub-station at Lawrence Park, said all three men were thrown from Donahoe's car, preventing authorities from determining which was the driver. Indications were the man at the wheel had fallen asleep. Donahoe had been on the police force for 11 months, spending the entire assignment at West Springfield.

NEW YORK, March 8.—"Imagine an actor in this show being charged with bad language."

That was the retort today of James Barton who for four years and until last month played the leading role of Jeeter Lester in the play "Tobacco Road" where the language is pretty plain, to charges that he had used abusive language backstage.

Details of backstage turmoil in "Tobacco Road" were made public when Barton was hailed before the council of the Actors Equity Association on charges preferred by Miss

Ingathering Of Members Begun

Y. W. C. A. Teams Have Opening Dinner; Aim For Thousand Members

INGATHERING WILL CLOSE ON MARCH 24

With a dinner in the Y. W. C. A. last night, attended by 86 team workers and chairmen, the annual ingathering of new members for the Young Women's Christian association was begun.

If the interest and optimism and enthusiasm of the workers is an indication, this year's ingathering should be the most successful in Y. history. The workers last night listened intently to all suggestions given by Mrs. Roy Long, who as president of the board of directors, presided in the absence of the membership chairman, Mrs. James W. Rhodes, who was ill. They received their prospect cards along with instructions, and when the meeting adjourned they departed with spirits flying high.

Want Thousand Members

Although no set goal was announced, every worker has last year's thousand mark to aim at, if possible, to surpass. One dollar buys a general membership; five dollars, ten dollars, or more a sustaining membership. The workers hope to have their thousand members (or maybe two thousand) by Friday, March 24, when the final report meeting and a tea will take place.

Informal reports will be received after the Lenten Bible class meetings on March 14 and 21, and at Y. club and committee meetings. There

Undistributed Profits Tax Law May Expire

WASHINGTON, March 8.—The treasury is willing to eliminate the controversial undistributed profits tax from the federal revenue structure as a move toward business appeasement.

Government tax experts informed International News Service today that the treasury has no objection to allowing this tax to expire at the close of this year.

Considered a stumbling block in the government's efforts to better its relations with industry, the profits levy may be supplanted by a moderate rise in the basic corporation income taxes, tax authorities reported.

Although greatly modified by congress last year, the levy has continued to draw fire from the business community.

Members of the business advisory council, an organization of leading industrialists, recently renewed their demands for abolition of this tax. The group has just concluded conference with Secretary of Commerce Harry L. Hopkins at which the taxation problem was discussed.

House To Concur In Senate Plans For 6,000 Planes

(International News Service)
WASHINGTON, March 8.—Promises of speedy house concurrence in the increases voted by the senate to provide the army air corps with 6,000 fighting planes under the \$358,000,000 army expansion bill, today smoothed the legislation's path to the White House.

Fresh disturbances occurred during the night and early this morning, it was stated, but by 3 a. m. the city was quiet, according to officials.

The radio communique stated the revolting army leaders "had followed the lead of the Communists."

Late last night, it added, the revolt appeared to have been crushed, but under cover of darkness troop units, stirred up by communists, starting firing from "nests" and occupied parts of the city.

The Communists, it was asserted, told the troops that the new defense council was "traitorous to the re-

Defense Council Reports Revolt Is Now Quelled

Madrid Is Quiet Today After Outbreaks Against New Regime

PEACE EFFORTS
TO BE CONTINUED

Troops Who Joined Revolt Are Ordered To Return To Their Posts

(International News Service)
MADRID, March 8.—General Jose Miaja's defense council claimed today that the revolt against the new Madrid regime has been suppressed and that the army chieftains who led it have surrendered.

The military Junta's official broadcaster announced over the Madrid radio that the revolting army leaders had given themselves up.

The broadcast communique also revealed the extent of the uprising, stating that military leaders both inside and outside of Madrid had been involved, along with Communists who bitterly opposed the plans of General Miaja for an early peace with the Franco government.

The defense council immediately ordered the troops who joined the revolt to return to their posts by mid-day.

Forces under command of the Miaja regime were instructed to remain at their posts and suspend their fire unless attacked.

Fighting Raged In Streets

Surrender of the military leaders of the uprising came after fighting had raged in the streets of Madrid and in some of the suburbs. Government bombing planes had attacked a number of buildings in which Communists were supposed to have gathered.

Fresh disturbances occurred during the night and early this morning, it was stated, but by 3 a. m. the city was quiet, according to officials.

The radio communique stated the revolting army leaders "had followed the lead of the Communists."

Predict Passage Of Reorganization Measure In House

(International News Service)
WASHINGTON, March 8.—Democratic leaders predicted the passage of the compromise Cochran-Warren government reorganization bill by a 75-vote margin in the House late today after a bitter partisan battle.

The crucial test will come on a Republican effort to substitute the economy philosophy of Senator Byrd (D., Virginia) for the liberal budget program of President Roosevelt. As Republicans rallied behind the Byrd reorganization bill—essentially based on reducing the huge structure of government—Senate liberals opposing the bill charged them with injecting Democratic presidential politics into the House.

President Denounces Neutrality Act

Elimination Of Measure Urged

President Also Opposes Any Law To Require War Referendum

SAYS NEUTRALITY ACT HAS FAILED

By ROBERT G. NIXON
International News Service Staff Correspondent

WASHINGTON, March 8.—President Roosevelt today warned congress to beware of legislative shackles which might leave the nation defenseless against sudden attack. He called for the clearing away of two major impediments—one threatened; the other actual—to a realistic conduct of America's foreign relations.

He demanded defeat of any proposal in congress calling for a national referendum before the United States could engage in war.

Denounces Neutrality Act
He denounced the neutrality act as a failure and recommended that it be stricken from the federal statutes.

In vigorous tone, the president declared that a war referendum seriously hamstringing the nation's defense at a time when aggressor powers were undeclared wars.

He branded the neutrality act as having failed to contribute to the cause of peace in the world, if not having actually encouraged strong military powers to attack their weaker neighbors.

America's influence for world peace, he asserted, would have been far stronger had not the neutrality act made it mandatory to embargo war supplies impartially to the attacked nation as well as to the aggressor.

The president's denunciation of the neutrality act was viewed as the opening signal for a concerted administration drive to deliver it a death blow which expires May 1.

Streets Quiet
By noon today, however, Madrid's streets were quiet and residents were attending to business as usual.

Large lines of people formed outside food shops, and trolley car and subway service, which was suspended yesterday, resumed operation.

Before the capitulation of the rebellious army chiefs was announced, the Madrid radio throughout the morning repeated an "ultimatum" calling on the rebel troops to return to their posts.

Later the radio announced the Mijsa's defense council will "continue its work to obtain a dignified and honorable peace," adding that "normal conditions now prevail."

"Spaniards must rejoice," the broadcaster declared, "for only under orderly circumstances can peace and liberty be attained."

Communists Submit
Paris, March 8.—An official communiqué from the French foreign office announced the receipt of word today from Madrid of the submission of communist rebels to the national defense council headed by General Jose Miaja.

"The Communists," the Quai D'Orsay communiqué stated, "surrendered to Miaja and the council at 11:15 a. m., three quarters of an hour before the expiration of an ultimatum presented to them by the government."

"The submission came after heavy fighting during which it was feared the Communists had gained the upper hand. Last night street fighting around the French embassy caused fears for the safety of the staff, but early this morning Miaja's forces restored calm."

"This latest information will aid France in peaceful relations with General Francisco Franco (insurgent leader)."

senate economy bloc, backed by Vice-President Garner. It is headed by Senator Harrison (D) of Missouri, chairman of the senate finance committee, and Byrnes (D) of South Carolina, chairman of the senate unemployment and relief committee.

Chief objectives of the strong coalition of Democrats and Republicans include a general reduction of government expenditures, ten percent in some instances, tax revision to afford additional incentives for business and industrial expansion, and limitation of the public debt.

Whether the president recognizes the congressional economy bloc is expected to be disclosed today if he carries out his plan to canvass the relief situation with WPA Administrator Francis C. Harrington. After the conference the president is expected to decide whether he will insist on a supplementary WPA appropriation of \$150,000,000 for relief until June 30. This amount was lopped off the \$875,000,000 Mr. Roosevelt requested for WPA in a senate and house economy drive earlier in the session.

JAPAN SEEKING MILLION BRIDES FOR MANCHURIA

(International News Service)

DAIREN, South Manchuria.—Japan is now faced with the necessity of providing 1,000,000 brides for Japanese settlers in Manchuria during the next 20 years, during which 5,000,000 colonists will go there.

This year 10,000 brides are needed by 53 farming villages in North Manchuria where Japanese have been settling since 1932.

The Tokyo Ministry of Education is to conduct special classes at agricultural schools for training these prospective brides.

The Ministry of Forestry and Agriculture will give similar training at 36 experimental farms while the Ministry of Overseas Affairs and other organizations will do their part.

When the girls have acquired the rudiments of agriculture and home economics these "farmettes" will be shipped across the sea to be distributed among the Japanese youths battling with the soil of the North Manchurian wastes.

SPRING TIME IS CLEAN-UP TIME

APRIL showers and May flowers aren't far away. That means a spring cleaning time.

And spring cleaning shouldn't mean just shaking out the rugs, washing the curtains, and dusting that little-used spare bedroom. It should mean a definite, planned program for putting property in apple-pie order, not only to improve its value and appearance, but to help prevent that dread destroyer that strikes when we least expect it—fire.

Trash-filled outbuildings are perfect incubators for fire from a carelessly dropped match or cigarette. Check over fireplaces and chimneys—from now on, such incidental heating units will be used more and central systems less. As warm, sunny days come, be especially careful to keep grass cut and fields clear of debris. Never burn brush when there is a wind and have water handy in case matters get beyond control.

Above all, go through the house from cellar to attic on an inclusive "junk-disposing" program. Those old newspapers and magazines you've put carefully away and will never look at again—those broken furniture that belongs to the worst period of design—those odds and ends of "gay nineties" clothing—that jumble of worthless, inflammable knickknacks in the hall closets: Get rid of them all. Give them to a charitable organization or the junkman. And you'll materially reduce the chance of a fire hitting your home.

A number of progressive communities carry on general spring clean-ups each year as a civic function. Parkings are tended and beautified, fences repaired, and old firetraps are torn down. Fire departments and other municipal bureaus cooperate and direct the drives. The result is a more attractive and safer town—and a town whose residents may feel proud of it. Every community which doesn't do that now should think it over—and start the idea going around. It pays dividends in dollars as well as less tangible values.

ANOTHER SIDE TO THE PICTURE

Down in the South, officials are beginning to worry seriously about what they are going to use for money—because of the rapidity with which the Tennessee Valley Authority is absorbing public utilities and other private property and removing it from the tax rolls. According to Walter Stokes, Jr., State Tax Commissioner of Tennessee, the situation has reached the "critical stage." He estimates that his state may lose close to \$1,000,000 in tax revenue this year. And cities and counties may lose as much as \$2,000,000 more.

As a result, there is a growing movement underway in that state (and others as well) to tax publicly-owned electric properties. Governor Browning has recommended to the legislature that these properties pay the "same taxes in all respects as those under private operation." The Tennessee County Judges' Association has voted unanimously to "seek legislation to permit the state and counties to tax electric properties taken over by municipalities for distribution of TVA power." And a number of counties have individually taken steps toward this end. And why shouldn't they? Operating a power plant for private customers is a commercial business, not a function of government for all the people.

Thus, little by little, the illusion of the blessings that will flow from socialization of the nation's utilities is being dissipated. A man isn't going to be long pleased by a reduction of a few cents in his power bill when he discovers that it means an increase in his tax bill. The private utilities pay up to 20 per cent of all their revenues (gross, not net) in taxes, and in every state the money received from them amounts to a considerable percentage of total revenues received from all sources. When government goes into business, this money is lost—and the taxpayer holds the sack.

IT'S THE PEOPLE'S RESPONSIBILITY

Chief Justice Hughes' excellent address at the celebration of the 150th anniversary of the first meeting of congress contained such a clear analysis of the philosophy of American government and the rights and powers of the great branches of government that it should be pondered by all, including every elected officer of the people.

"We work in successful co-operation," said the chief justice, "by being true, each department to its own function, and all to the spirit which pervades our institutions, exalting the processes of reason, seeking through the very limitations of power the promotion of the wise use of power, and finding the ultimate security of life, liberty and the pursuit of happiness, and the promise of continued stability and a rational progress in the good sense of the American people."

Thus the attempt by one department of the government to arrogate to itself the rights or functions of another department is definitely not in the American spirit. Moreover, anything that disturbs the checks and balances of our constitutional system and weakens its wise curbs on power tends to endanger individual liberties. Our constitutional form of government, maintained unimpaired, is protection against all the perils of one-man rule that beset the inhabitants of some countries less fortunate in its heritage than ours.

Defense of this system is the people's responsibility. Two years ago the nation rose in its might to repel a threat to the integrity and independence of the Supreme Court. Such vigilance and determination on the part of the people form the cornerstone of national stability.

Burns had a "For Sale" sign chalked on his old car. A stranger approached and inquired: "What are you asking for it?" "Two hundred and fifty dollars," said Burns.

"I'd give you twenty five," said the stranger.

"Well, you've bought a car," said Burns.

The Parent Problem

By Garry C. Myers, Ph. D.

GOLD STAR REWARDS

WRITES a mother from Iowa: "I have a little girl six years old who, until recently, would suck her thumb on going to bed. I read one day in your column your suggestion about rewarding children with gold stars. I tried this and to my surprise it worked. There has been only one night since I started this that I have found her with her thumb in her mouth."

From Minneapolis comes this: "In an ungraded class a first year pupil would get up and go home when called on to recite in class. His mother brought him back, telling the teacher to punish him. The teacher put him to sit with an older brother and gave him pencil and paper and an outline book to copy from, saying, I wonder if you can make these."

Mother Disapproved

"His mother went home disapproving. The elder brother was induced at school to give him quiet suggestions. About two weeks later, one day he surprised the class by coming voluntarily to recite and came into his class when they recited afterwards. He had conquered his own timidity and was a successful pupil later. This helps to prove your plan: If there is no wilful disobedience, allow children to think for themselves with our advice."

Thank God for, patient, sympathetic, understanding teachers.

From Toledo, Ohio:

"Seven years ago you advised a mother that a child might be able to go to the store when ready for kindergarten. I took your advice. At seven my daughter began to go downtown to shop, to market, to the dentist. Large purchases were sent C. O. D. I didn't think it wise to have her charge them. The clerk says she is quick to decide and knows what she wants. I appreciate the interest they take in what she buys."

Value Of Money

"Now, at eleven, she knows the value of money, and there are few things that she can't buy alone, whether it's food or clothing. She does practically all my shopping, as she likes to do it, and pays bills for me. At first I pinned the money in her pocket. Only twice has she lost small change. I find her truthful."

The World AND THE Mud Puddles

THE ENGLISH LANGUAGE

The English language is a curious thing; particularly, the derivation of English words. The language originated with the early Saxons, later influenced very strongly by the Norman French and always, since the advent of the missionaries and priests from the Church of Rome, by the Latin language.

The pronunciation of the English language is another thing. Bernard Shaw says that no Englishman pronounced it correctly; that if an Englishman wishes to know how his language should be pronounced, he has got to listen to a foreigner pronounce it.

No other people on the face of the earth have such a curious nomenclature by which the language designates weights and measures. Nearly every civilized nation today, with the exception of England and the United States, have the metric system. Only the English and Americans speak of pounds, bushels, inches, feet and all that. Even the English money is a curious mixture of pounds, shillings and pence. For instance, Troy weight of twenty-four grains, the pennyweight, was in early English history the actual weight of a silver penny. At that time the penny weighed twenty-two and one-half grains or one two-hundred-and-fortieth part of the Tower pound, the earliest form of the British sterling pound. It will seem that the English people mixed up their Troy weights with their money values.

Until about the Fifteenth Century, nails were sold in England by the hundred, the price being determined by the size of the nails. Those sold at tenpence a hundred were called tenpenny nails; those at sixpence a hundred were sixpenny nails. These old names have survived even after the prices were changed and today carpenters designate nails as sixpenny and tenpenny or any other penny, depending upon the size of the nails.

It is not only the mellow widow or divorcee who reaches this point of greatest heart-appeal at two score. Bachelor girls are prolonging their charms quite as long and quite as effectively. President Stirs Up Tempest
Mixes In Woman's Party Affairs
Mrs. Roosevelt Also Is Involved

By CHARLES P. STEWART

Central Press Columnist

WASHINGTON, March 8.—The National Woman's party is a bad outfit to get into an acrimonious argument with. President Roosevelt almost certainly would not have antagonized this particular group had he realized he was doing so. As a matter of fact, the party's members don't blame the president as much as they do Mrs. Roosevelt. However, he was the one who committed the overt act, and whatever the consequences be, he'll have to take 'em.

The Women's National party took about all it could stand from Uncle Samuel when he evicted them from the quarters it used to occupy just east of the park in front of the Capitol building.

This historic old edifice had plenty of first class associations. Congress met in it for a while after the British burned its regular assembly halls. Later, it was a federal prison during Civil War days. Major Wirz, who had been a Confederate commandant at Andersonville, subsequently was hanged in its dooryard. It was a place the Women's party was extremely proud of.

But the government wanted the ground that the structure stood on as part of its site for the present U. S. Supreme Court building. Consequently, it surreptitiously bought up that piece of real estate and notified the Women's party to move out, as the roof was to be yanked off right over its head.

The deal was legislatively sneaked through so cleverly that the Women's party hadn't any option. It had to move, and it did move a few blocks away into another historic old domicile.

Then, a year or two afterward, more trouble developed. J. R. McCarl, at that time U. S. comptroller general, took a fancy to that newer location, as a stand for the general accounting office, which would have meant another Women's party transfer. Only, McCarl wasn't secretive enough. The party got an advance tip that a fresh plot was afoot to oust it.

A Woman's party delegation called on the senate and house committees on public buildings and grounds. "If," said these delegates, in effect, to the committees, "you fellows make us move again, heaven help you on next election day."

And did those legislators hunt their holes?

Well, the general accounting office hasn't transferred.

A Belligerent Organization

I mean to say that the Women's party is a belligerent organization. Some feminist set-ups demand easy hours and other concessions in favor of women. The Women's party contends that this is all bunk.

Now, Mrs. Roosevelt avowedly supports a program of feminist protection. Hence the Women's party fights her.

The president, according to Women's party publicity, supports Mrs. Roosevelt.

Which Is Which?

To get back to the original discussion: The Pan-American Union (a semi-official hook-up of the 21 new republics) includes what's known as the Inter-American Commission of Women. In this collection the Women's party heretofore has been dominant. Its chairman has been Miss Doris Stevens, a Pan Americanist. She's held the job for a decade. Yet just now President Roosevelt has designated Miss Mary Winslow to succeed Miss Stevens.

Well, in the first place, Miss Winslow is of the anti-Woman's party faction.

President Roosevelt hasn't any right to name those chairmanships anyway. They're not official. Miss Stevens simply won't surrender her desk to Miss Winslow, and she doesn't have to; she isn't a presidential appointee anyway.

It's an international row between President Roosevelt and the National Woman's party.

International? Intersexual. I'd say.

The President's Choice

WASHINGTON, March 8.

UPON his return to Washington, Mr. Roosevelt finds himself confronted with a situation the development of which ought to be a convincing proof to him of the mistaken nature of his belief that the people as a whole still favor his policies and New Deal reverses last November were entirely due to "local causes."

The basic policy announced in his January message to Congress was a continuation of Federal spending. That is actually all the New Deal now rests upon. In presenting a budget close to nine billions of dollars, which means a deficit for the next fiscal year of nearly four billions and a debt above forty-five billions, the President, according to the formula provided by Mr. Eccles, took the position that neither the imbalance budget nor the mounting debt was anything to worry about and any attempt to economize by cutting Government expenditures would be unsound.

HE still adhered to this stand when the drive to restore business confidence was inaugurated through the reassuring statements of Mr. Morgenthau and Mr. Hopkins, the only concrete results of which to date is the selection of a Chicago businessman as "temporary adviser" for the latter. Now, the President finds that neither Congress nor the country has confidence in a drive to restore business confidence based on a policy of unrestricted spending, deeper deficits, heavier debt and steady White House discouragement of economy.

HE finds a strong movement in Congress, initiated not by Republicans but by Democrats, to cut all governmental expenditures a flat ten per cent. The leader in this is Senator Harrison, chairman of the Senate Finance Committee. Supporting it are Vice-President Garner, Senator Byrnes and others who heretofore have been aligned with the Administration. In sympathy with it beyond doubt is a majority in both House and Senate. Moreover, even if the White House opposes, an effort along these lines will be made. It is an extremely significant development.

FOR one thing, it amounts to a public declaration of distrust upon the part of Congress in the President's program and a disbelief in the accuracy of his fiscal statements. In effect, he told the Congress there was no way in which it could reduce with safety; challenged and twitted it to try. In effect, leaders of his party in Congress now say to the President: "You are entirely wrong; that it is the course he recommends which is not safe and the one he denounces which is; that a great many millions can be saved, not only without danger, but that it is exceedingly dangerous not to make the cuts. In addition, he is told that no amount of reassuring words to businessmen will be beneficial if spending is not curtailed and an effort to regain national solvency made; that pump-priming has failed for six years and that a resolve to halt spending is the essential condition to any worth-while business recovery."

THAT, in effect, backed up by the trenchant report of the National Economy League, is what the President is told upon his return, and it clashes head-on with the Eccles economics which he has made his own. There are two things he can do. First, he can adhere to the spending plan, oppose any effort to reduce expenses, and continue trying to make Congress and the people swallow a theory in which they thoroughly disbelieve and which conflicts with elemental common sense. Or, he can accept the fact that pump-priming is a demonstrated failure, that public sentiment has definitely turned against spending, that even a gesture toward reduction would encourage business and that there are ways in which a great deal of money can be saved without in the least affecting governmental efficiency—for example, in abolition of such useless excrescences as the National Emergency Council.

IF the President chooses the first alternative, it means a fight in which he may easily be defeated, an increase in party bitterness, a widening of the Democratic division and general accentuation of the country's problems. If he chooses the other and cooperates in the Harrison movement, he must discard entirely his January message, concede that the Eccles ideas are unsound, that he was wrong and Congress knows best. Only those who do not know Mr. Roosevelt think it likely he will do that. In the six years in which he has launched more schemes which failed and spent more money uselessly than any other President in history, he has not yet admitted a mistake. That seems to mean if any progress is made in the reduction line it will be by Congress, in spite of the President and not with his aid. Despite the sentiment, anyone who knows the difficulty of cutting, even with White House leadership, will not expect very much.

There is a limit to almost everything except how strong a man can be while sincerely convinced that he is in the right.

Duke And Duchess, And Lindberghs, Fast Friends

By MERRILL MUELLER

PARIS, March 8.—The world's two leading couples in exile—Col. and Mrs. Charles A. Lindbergh and the Duke and Duchess of Windsor—have become fast friends, it was learned exclusively today.

Both in self-imposed exile, they have found solace in each other's company, one family following a quiet and scientific trend of life, the other a gay but hopefully useful existence.

Ambassador William C. Bullitt is the man credited with bringing the two of the world's outstanding couples together. His dinner parties at the American embassy residence served as the starting place for this new and unusual friendship.

Simple understanding is the foundation of this friendship. The two couples are actually "good neighbors."

The Lindberghs acceptance of the Windsors is obvious. It is not royal blood that has drawn the Lindberghs to the Windsors, but the striking personalities of the Duchess and Duke—personalities in which the Lindberghs have found solid friendship and understanding.

The royal couple finds the Lindberghs interesting and highly intelligent with outstanding personalities. Mutual sympathy enters the friendship in only one way, their desire and effort to dodge the limelight.

Individually, Colonel Lindbergh and the Duke find aviation their common ground; the Duchess and Anne Morrow Lindbergh turn to fashions, writing and children.

Mrs. Clark Gable Granted Divorce

(International News Service)
HOLLYWOOD, March 8.—The way was clear today for screen idol Clark Gable to marry Carole Lombard, the blonde star, but while Hollywood watched with keen interest, neither Gable nor Miss Lombard had anything to say about their future plans.

In Las Vegas, Nev., yesterday, Gable's socialite wife, Mrs. Maria Gable, was granted a quick divorce on grounds of desertion, and in Hollywood it was generally accepted that Gable and Miss Lombard, who has been the object of his heart for the past two years would be wed shortly.

"There is no announcement coming from me just now," said Gable, and that was all he would say. It was the same with Miss Lombard. Both admitted, without being quoted, however, that they would be married.

With only one "Not A True Bill" returned, and that in a desertion and non-support case, the March grand jury made its first finding. Nineteen cases were considered, with eighteen true bills returned.

The following are the first returns, all of the cases being listed as the Commonwealth against the names listed. Wendell Jennings, desertion and non-support, not a true bill.

William Fletcher, driving a motor vehicle while intoxicated, a true bill.
Pete Boy, Receiving stolen goods, A true bill.

Sylvester Newton, Statutory rape, A true bill.

Clifford E. Rowland, Statutory rape, A true bill.

Antonio Galzerano, Fraudulently making and uttering checks, A true bill.

John Altman, Desertion and non-support, A true bill.

Alvin Leasure, Desertion and non-support, A true bill.

William Kennedy, Desertion and non-support, A true bill.

Ben Cupido, Desertion and non-support, A true bill.

Thomas Blake, Desertion and non-support, A true bill.

The work of the grand jury was reduced considerably by pleas secured by District Attorney John G. Lamore. Over 100 cases were listed for consideration of the grand jury. Not counting the few desertion and non-support cases, the jury next week will have only ten or fifteen cases to actually try it is thought. Pleas save the county money and each term of court in the past year has been short because of the attention paid to pleas.

'Open House' Celebration Set For Evening Of Friday, March 24

Parents of boys of the New Castle Y. M. C. A. will be special guests of the association at an "open house"

celebration in the boys' department rooms of the "Y." Friday evening, March 24, at seven o'clock, it was announced today by Henry T. MacNicholas, assistant general secretary.

Parents of the Gra-Y club boys will also be invited to the affair.

If you are ever called upon to eat "humble pie" when you have done another wrong, be glad you are not required to eat what was served to servants and ordinary huntsmen at the feasts of noble hunters. It was made of what were known as humbles, umbles or numbles—the heart, kidneys, entrails and other inferior parts of the slain deer made into a kind of pie.

Tourist Business In New Castle Increases

(Special To The News)
HARRISBURG, March 8.—The tourist business in the New Castle area during the 1938 travel season exceeded that of 1937 by probably as much as 10 percent, according to a survey made by the Pennsylvania State Publicity Commission.
In making this business research, a State Publicity Commission representative called on hotels, restaurants, service stations, tourist homes, cabin camps, gift shops, etc.
New Castle's leading hotel reports that the 1938 travel season attracted more tourist guests than the same period in 1937. October, when Pennsylvania's mountains are most colorful, showed a marked increase in travel trade.
Increases Shown
Gas sales serve as a true barometer of travel business. Although 1937 was a peak year for tourism in Pennsylvania, service stations in the New Castle area report that the summer months of 1938 exceeded the same months of 1937 in this respect. Out-of-state tourist trade showed a marked increase. One service station reports an increase of 10 percent for 1938 over 1937.
A cabin camp near New Castle, where 13 cabins are available, was kept well filled during the entire season.
The State Publicity Commission claims a total of \$400,000,000 for the 1938 tourist season. The United States Department of the Interior lists Pennsylvania as the third ranking State in volume of tourist business in the country. New York is first and California is listed second.

March Grand Jury Completes Work

New Detention Home Is Among Recommendations Made By Jury

Finishing their work on Tuesday afternoon the March grand jurors returned 22 true bills out of 24 presentments, inspected the court house and grounds and made some recommendations.
The grand jury recommended a new detention home for the county but suggested that if the county commissioners could not see their way clear to building a new detention home that a laundry be built on the back of the present building adjoining the court house.
The report said the county jail was in good shape with the exception of the windows in the women's quarters. Parenthetically it may be said that the windows in question have been bad for years and because of their condition it is impossible to clean them.
A fire proof safe is recommended for the office of the county treasurer.
It is finally recommended that the walls and ceiling of court room number two be repaired.

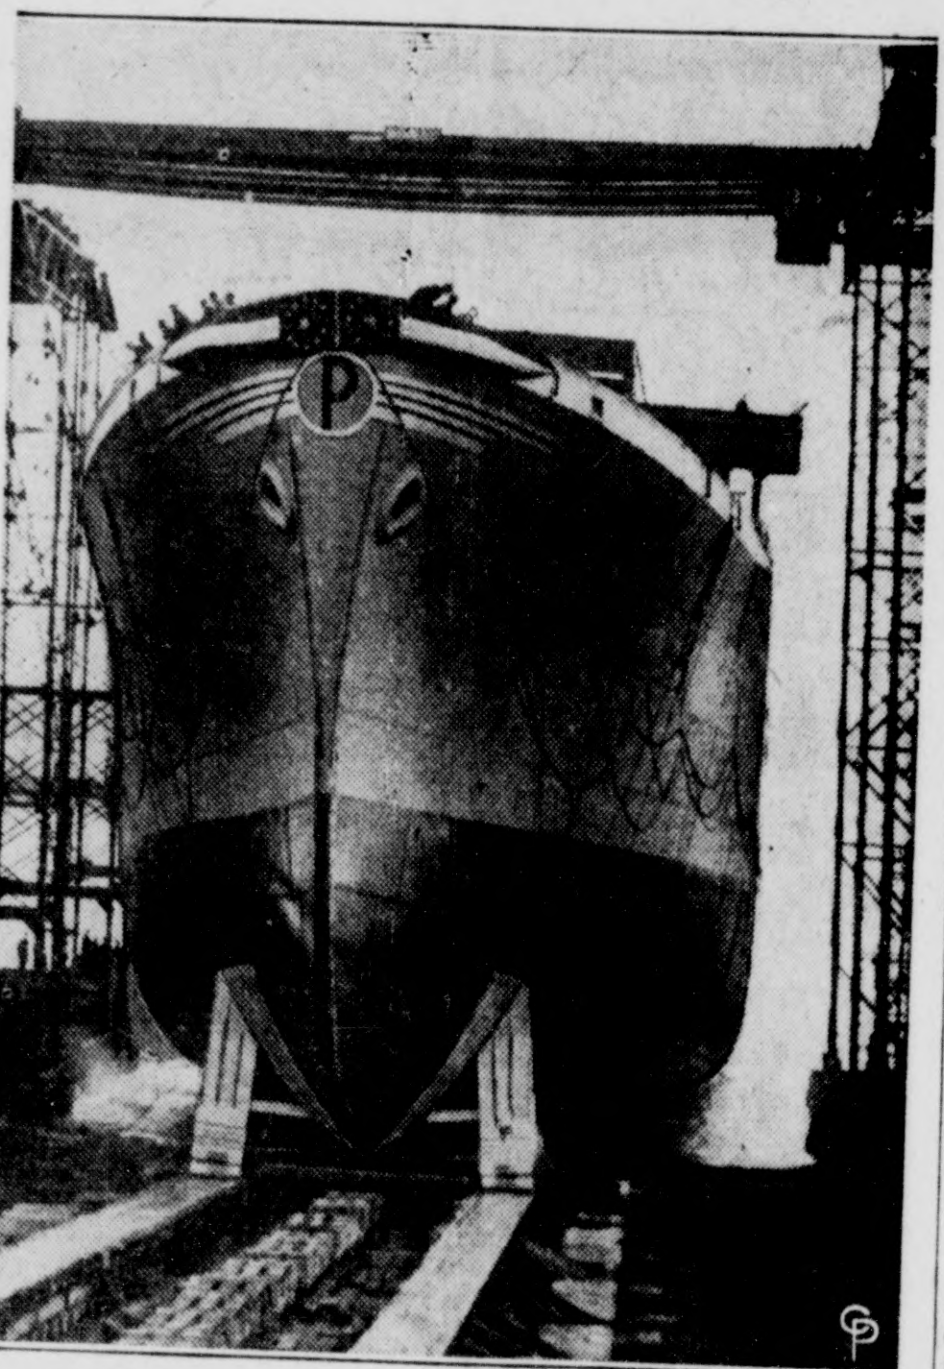

Women Approve Strip-Tease Act

(International News Service)
PHILADELPHIA, March 8.—It's really art, some 2000 women were agreeing today after witnessing a private burlesque show at which a strip-tease dancer did her stuff.
Not a single male was in the audience as burlesque stars from Philadelphia theaters contributed their acts for the benefit of the Philadelphia consumptive relief, a charitable organization.
There was an all-male orchestra, but that didn't bother the ladies. The strip-tease number, by common consent, was the hit of the show.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go
The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.
A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up." No dizziness, no headache, no nausea, no making bile flow freely. Ask for Carter's Little Liver Pills by name. Refuse anything else. At all drug stores. 10¢ and 25¢.

May Investigate Report Japan Has Air Base Near Panama Canal

(International News Service)
WASHINGTON, March 8.—Disclosures that Japan has a potential air base in Costa Rica only 90 minutes by air from the Panama Canal—carried in the dispatches of H. R. Knickerbocker, International News Service roving foreign correspondent—brought congressional demands for immediate investigation today.

Members of the Foreign Relations committees of both houses of congress studied Knickerbocker's story, telling of a supposedly "cotton farm" operated in Costa Rica by 30 Japanese "farmers" whose boss is a Japanese navy reserve officer. The committee members revealed there was confidential evidence available that totalitarian power activity of various sorts in Latin America was vigorous, but said news of this "farm," consisting of a mile square of flat and well drained land near the sea was new.

Rep. Sol Bloom (D) New York, acting chairman of the House Foreign Affairs committee, commented:

Should Know Facts
"It is not up to us to say whether these reports are right or wrong.

But we should know the full facts. Remember what Napoleon said: 'Always awaken me at any time to warn me of danger. Good news will keep.'"

Senator Key Pittman (D) Nevada, chairman of the Senate Foreign Relations committee, said:

"I have read a great many of Mr. Knickerbocker's reports from various parts of the world. Many of his predictions have come true. His story is worthy of careful consideration. This is not the first report of totalitarian power activities in Latin America that we have had, although this particular one is new.

Rep. Luther Johnson (D) Texas, a member of the House Foreign Affairs committee, supported the position of Bloom in calling for an inquiry.

"An investigation of the matter is justified as to its potentiality and the effect it might have on defense of the Panama Canal," he said.

"If a potential air field is in Japanese hands, 300 miles from the Panama Canal, it might constitute a serious menace to our national defense."

ings of this eminent American went to the very roots of life. He liked to speak in simple salty language: the language of the people, scholar and aristocrat though he was.

Theodore Roosevelt appointed him to the supreme court bench in 1902, and his speech of farewell to the Boston Bar rang like a trumpet call:

"But, gentlemen, it is a great adventure and that thought brings with it a mighty joy. To have one's chance to do one's share in shaping the laws of the whole country spreads over one the hush that one used to feel when awaiting the beginning of a battle. We will not falter. We will not fail. We will reach the earthworks if we live, and if we fail, we will leave our spirit in those who follow, and they will not turn back. All is ready. Bugler, blow the charge."

A very mistaken belief grew up through the subsequent generation: that Justice Holmes was a radical. He was not a radical. He was simply an honest, intelligent man. Of fascinating personality, he was, as Justice Hughes said of him, the best company in Washington. To talk with him was an adventure—with this grand old gentleman of Massachusetts, so brave, so wise, so old yet so youthful, who had found life so exhilarating, so good.

His famous wit was spontaneous, not easily reproduced in print. Justice William R. Day, one of Holmes' colleagues, was a frail, tiny mite of a man. One day his son, a big six-footer, appeared before the Supreme Court and argued his case ably. Holmes scribbled a note and passed it along to his fellow judges:

"A block off the old chip."

One day a burglar was arrested in the home of a Washington woman. The next evening she was telling Holmes about it.

"I went right down to the jail and talked to that burglar," she said earnestly. "I told him how evil his way of life was. I told him how much happier he would be if he reformed. I talked to him for two hours."

"Poor man," murmured Holmes.

"Poor man!"

As befitted a student of words and an old soldier of the Army of the Potomac, he had a striking artistry in the use of profanity when he was among intimates. But he yielded the palm here to his old friendly enemies, the Confederates.

"Young feller," he said one day to a friend, "you will never appreciate the potentialities of the English language until you have heard a southern mule driver search the soul of a mule."

A long-winded lawyer was boring the members of the court into a coma on one occasion, and asked Chief Justice Taft for 30 minutes additional time. The chief justice turned to Judge Holmes who was sitting on his right.

"Shall we grant his request?" he said.

"I'd see him in hell first," replied Judge Holmes in an undertone which could be heard all over the chamber. Always he lived life to the very brim. He was 90 when he said:

"To express one's feelings as the end draws near is to intimate a task. But I may mention one thought. The riders in a race do not stop when they reach the goal. There is a little finishing canter. The race is over but the work is never done while the power to work remains. It cannot be, while you still live. For to live is to function. That is all there is to living. And so I end with a line from a Latin poet: 'Death plucks my ear and says: Live, I am coming!'"

His last gesture before he died was equally impressive. He knew the end was near. His friends stood about the bedside sorrowing. Doctors were at the bed's head, nurses at the foot. The great man lifted his fist and placed the thumb against the end of his nose. Deliberately, he spread his fingers and solemnly wagged them. Then he died.

INFECTION MOST COMMON TROUBLE ARISING IN IN- TESTINAL TRACT

We have spent several days in study of troubles that may occur in connection with a baby's food from the time he swallows it until it is eliminated. The reason we are making such a careful study of this phase of the life of an infant is that gastro-intestinal infections are second only to infections of the respiratory system as a cause of infant death.

Infection is probably the most common trouble to occur in an infant's bowels. Taking place in the lower bowel, it is always due to some bacteria which has been introduced into the digestive tract through the mouth.

When this infection, accompanied by diarrhea and more often than not, by vomiting, occurs in a newborn baby, it is a very serious matter. As you know, a baby as young as that needs every bit of food it can get into his little stomach. The strength he needs can be obtained only by eating. So if vomiting and diarrhea intervene nearly all the food he takes is wasted.

This is the reason that instructions are always so explicit regarding the cleaning of the baby's bottle. Every time it is used it would be cleaned. See to it that it is the type of bottle that can be cleaned; that it has well-rounded corners so a cleaning brush can get into them.

In addition to such cleaning, bottles should be boiled in water for at least ten minutes. The rubber nipples that go into the baby's mouth should be cleaned and boiled. In fact, care should be taken that nothing that might send infection down into the digestive tract should be allowed near his mouth.

This brings us to the subject of those "pacifiers" or "comforters" mothers sometimes stick in the baby's mouth to keep him from crying. I have seen them drop on the floor in the dust and dirt, and then be picked up and put into the baby's mouth. Yes, I've seen the dog and

the cat playing with them, too—and the comfort is put back in baby's mouth as soon as he begins to cry. Of course I hardly need to mention that all milk should be pasteurized. Any mother who feeds her baby unpasteurized milk is taking a chance that the baby may spend years as an invalid, his bones riddled with tuberculosis. Such a chance is too big for any mother to take. If she has her child's interest at heart, I know that out in the country pasteurized milk isn't always available. In that case, see that the milk is boiled. Boiling may take some of its properties away, but these can be replaced by giving the child viosterol or cod-liver oil, and orange, pineapple, grapefruit or tomato juice. I always saw that milk was boiled in my practice whenever I had any say in the matter.

Remember, if your baby develops diarrhea, he is a sick child, and the doctor should be called at once. Any doctor you ask will tell you of the tragedies he has seen when the mother lets the baby continue to have diarrhea one day too long. Don't let this happen to your baby.

DAILY DOZEN

(From the Medical Society of the State of Pennsylvania)

Paralysis appears to the layman to be a muscular disorder. It is, however, a disorder in the nervous control of muscles. Muscle control originates in nerve cells in the brain. This nerve supply travels down the spinal cord. And so out in nerve trunks to the various muscles. Nerve supply may be injured at some point along the line. Injuries at different points produce different paralysis. There are flaccid and spastic types of paralysis. One is relaxed and limp with no power of muscle contraction. The other is tense and stiff with contraction. Disease or accident may result in paralysis. Many forms of paralysis can be improved some even cured.

Also presented and adopted was a supplemental budget for the coming fiscal year. The new rearmament scheme calls for supplementary expenditures spread over five years in the case of army and six years for the navy totalling 1,889,032,000 yen, of which 194,890,000 yen will be spent for the army and the remaining 1,694,142,000 for the navy. Survey Of Aliens On Relief In State Is Requested

State Senate Asks Report

Estimate 30,000 Aliens On Direct Relief Rolls Of State At Present

PROVIDE PROBLEM OF CONSIDERABLE SIZE

By **RAYMOND WILCOVE**
International News Service Staff Correspondent

HARRISBURG, March 8.—In what was generally interpreted today as a preliminary move toward "purging" the state relief rolls of aliens, the Senate asked the Department of Public Assistance to make a survey of all aliens on relief.

The department was asked, in a resolution presented by Senator George G. Stevenson (R) Clinton, to submit to it a report on the number of aliens on relief and the amount paid them. The survey would cover each of the state's 67 counties.

30,000 Aliens on Relief

Although the Public Assistance Department has never previously made such a survey, it was estimated that on the basis of the population as a whole there were approximately 30,000 aliens on relief.

As the federal government has already disclaimed responsibility for aliens on relief, "purging" its WPA rolls of all aliens, a similar "purge" by the state would create a situation wherein 30,000 people would be left without visible means of support. Counties and municipalities, under the present relief law, are barred from handling relief.

Stevenson's resolution and the subsequent report to be made by the Assistance Department were expected to bring to the forefront the privately expressed beliefs of many legislators that the state

should not be forced to support aliens. Removal of aliens from relief would do much, they feel, to reduce the enormous cost of relief.

Many legislators believe that aliens without means of support should be deported. Secretary of Public Assistance Howard L. Russell said, however, that few aliens were subject to deportation and that inability to make a living was not cause for deportation.

Few Subject to Deportation

A few aliens, those placed on bond by immigration officials upon entrance to the country, were subject to deportation within three years if on relief. Aliens found to have entered the country illegally were also subject to deportation. But the great mass of aliens were not subject to deportation, Russell pointed out.

Consequently, dropping aliens from relief rolls would create an "impossible" situation, Russell admitted. Although there was no indication that the administration was backing the Republican measure, it was known to have considerable support from individual legislators.

The WPA purge, which is now nearing completion, affected approximately 4,500 aliens in Pennsylvania who are now expected to apply for state relief.

"It is known that in the aggregate large sums are going to the support of persons whose allegiances are to foreign governments," the Stevenson resolution read, adding:

"The cost of direct relief . . . to indigents has assumed such proportions in the commonwealth of Pennsylvania that the commonwealth with its present income is not able to meet its obligations to the school districts . . . and to relieve industry of its burdensome taxes."

Rivals In School Play On Friday

Taylor And Hoffman Have Important Roles In "Hooray For Youth"

David Taylor

David P. Taylor and Everett C. Hoffman are cast for the roles of bitter rivals in senior high school's new comedy, "Hooray for Youth". Young Taylor is the hometown boy who has come to look upon his employer's daughter as his lawful prize. As Curt Melton he is definitely put in his place by a well-groomed stranger with "patent-leather hair" who appears suddenly with a car and a good deal of free time. This is Everett Hoffman in his role as Ellwood Dodge. How they are innocently involved in the theft of five thousand dollars and in the ensuing complications get straightened out in matters both financial and romantic, makes up a good deal of the story of the play.

"Dave" is a well-known and popular senior. He has been very active in the Boy Scouts' organization, is an Eagle Scout and took the Scout assignment of city mayor in 1938. He holds membership in the Hi-Y and the student-government organization, serving as auditorium usher and as hall-patrol. He is the son of Mrs. Rachel P. Taylor of Sheridan avenue.

"Tut" Hoffman is a member of the Hi-Y of the French club, of the Art staff of the "Ne-Ca-Hi", the seniors' commencement publication, and is also one of the news reporters for the English department. He is the president of the French club and also of the Hi-Y. Everett C. Hoffman is the son of Mr. and Mrs. Charles Hoffman of West Washington street.

Asks For Probe In Cambria County

Highways, W. P. A. And Other Departments May Come Under Investigation

(International News Service)
HARRISBURG, March 8.—A resolution initiating a legislative investigation of the department of highways, the WPA, the department of public assistance, and the unemployment compensation division of the department of labor and industry in Cambria county Tuesday went to the house for concurrence following passage in the senate.

Sen. John J. Haluska, Cambria Democrat, who introduced the resolution, said he desired an investigation made of charges that there had been an improper use of funds by the state and federal agencies under fire. In addition, he said, there were other charges which allegedly include "the existence of many highly irregular practices, incompetent personnel, political coercion, graft, bribery and malice."

The resolution passed unanimously although Democratic floor leader Sen. Harry Shapiro, Philadelphia, questioned whether the legislature held the authority to investigate the WPA and the unemployment compensation division.

The resolution sets up a legislative committee composed of three senators, one of whom shall be chairman, to be appointed by the president pro tem, and two representatives to be appointed by the speaker. It would have the power to issue subpoenas and to continue its investigation after the legislature adjourned, reporting subsequently either to the governor or the next legislative session.

Ask Figures On Tuberculosis In State At Present

(International News Service)
HARRISBURG, March 8.—Speaker of the house Ellwood J. Turner today referred to committee a resolution introduced by Rep. George J. Sarraf, D. Allegheny, calling upon the legislature with figures showing the number of persons suffering from tuberculosis who have applied for admission to state institutions during the year.

In addition, the resolution seeks to ascertain the number of beds now occupied in sanatoriums by tubercular patients and also the number of vacant beds.

Sarraf put in his resolution after Dr. A. O. Hindman, D. Washington, speaking on personal privilege, had decried the suggestion of Gov. Arthur H. James that the opening of the new sanatorium at Butler be delayed two years. Hindman's speech in the house was the first outburst against the governor's proposal in that body. Last week Sen. G. Hale Sipe, Armstrong Democrat, criticized the recommendation of the chief executive.

Hold Mother For Death Of Her Son

Mahanoy City Mother Faces Charge Of Murder In Child's Death

(International News Service)
MAHANOCY CITY, Pa., March 8.—A young mother who said her three-year-old son was a "nuisance" because "he cried too much" was being held today for grand jury action on a charge of suffocating him.

At the same time, Corp. C. D. Boyle, of the state motor police, quoted Mrs. Gus Edinger, charged with the murder, as saying she had planned to kill three other sons because "she couldn't stand them."

The slight-built mother confessed to suffocating her son, Daniel, by holding her hand over the boy's nose and mouth for "10 or 20 minutes" as he slept with her and another son.

She pleaded innocent at a hearing yesterday and was held in jail without bail for grand jury action. The child's father—a WPA worker—was stunned by the tragedy and went alone to Daniel's funeral yesterday. He was released after state police were convinced he had been asleep Saturday night when the child died. Mrs. Edinger told her husband the baby smothered during the night, dying of natural causes, state police said.

The death of young Daniel Edinger marked the second baby killing Pennsylvania has witnessed within a week. At Millintown in central Pennsylvania another mother and her alleged jealous lover awaited grand jury action in connection with the fatal beatings administered little two-year old Miriam Wolf.

False Teeth Wearers Are Worst Breath Offenders!

"Need More Than a Mouth Wash" say Authorities . . . Recommend Polident

Plates and bridges soak up odors and impurities like a sponge! A thin dark scum collects on them. This scum holds germs and decay bacteria. It is so tough that ordinary brushing seldom removes it. And it gets into every tiny crevice where brushing can't even reach. Almost always it results in "denture breath"—probably the most offensive of all breath odors.

Yet there's a perfect way to clean and purify false teeth without brushing, acid or danger. It is Polident, a powder that dissolves away all scum, stains, tarnish and odor. Makes breath sweeter, and plates or bridges look better and feel better. Tens of thousands call Polident a blessing for comfort, convenience and hygiene. Long-lasting can cost only 30¢ at any drug store. Approved by Good Housekeeping Bureau and dentists everywhere.

Cleans, Purifies Like Magic
Use this daily. Add a little Polident powder to ½ glass water. Stir. Then put in plate or bridge for 10 to 15 minutes.

NEWS BRIEFS IN
WARD DISTRICT

The Boston Bull pup that was at- tured in little sister's white sweater attracted considerable attention and comment as it was led down Liberty street, Tuesday afternoon.

"Sara Sees It Through" will be presented in the auditorium of the

Mahoning Methodist church, Thurs- day and Friday nights of this week. This is a short comedy, that is guar- anteed to produce a great deal of laughs and merriment.

Invitations have been sent out to the various ward churches, asking the congregations to join with the Presbyterian congregation on Sun- day night, for the Sacred concert to be presented by the Brahms ladies chorus.

A great deal of comment is heard these days on the proposed road project for the Seventh Ward. Both sides of the question are heard from persons for and against the im- provement.

It appears as though the persons who purchased the huge safe at the rear of the post office have given up the task of moving it. The safe weighs several tons.

Synagogue Sermon
For Friday Evening

Tifereth Israel Services Open
At 8:30; Bar Mitzvah
On Saturday

On Friday evening at 8:30, late Friday services will be conducted as usual at the Tifereth Israel Syna- gogue. Rabbi Mordecai J. Simckes will preach on the subject: "The True Meaning of Life." Gilbert Ele- fant, the newly elected cantor, will lead in congregational singing.

On Saturday morning at the regu- lar service, Sayle Wolfe, a student of the Hebrew school, will celebrate his Bar Mitzvah. Friends and re- latives of the family will attend. Rabbi Simckes will address the Bar- Mitzvah boy on the significance of the day. After the services, refresh- ments will be served.

More than 200 people were present last Sunday evening when the chil- dren of the Sunday Religious School presented a program centered about the Purim holiday. A play and playlet were presented, both being received most enthusiastically by the audience. Rabbi Simckes arranged the productions and Miss Estelle Waldman, a teacher in the school, directed and coached them. As a token of appreciation for the help and advice given by Miss Waldman, the children who took part in the play presented her with a beauti- ful corsage. After the performance, Rabbi Simckes spoke about the im- portance of Religious School educa- tion and about the necessity for good home upbringing. His address was received with acclaim by the large audience.

Four Convicted
Men To Regain
Freedom Today

(International News Service)
MEADVILLE, Pa., March 8.—Four members of the Textile Workers organizing committee who were con- victed and sentenced for the "un- merciful beating" of a non-union fellow employee at the American Vis- cose company's plant here were scheduled to regain their freedom today.

Pending a superior court ruling on a plea for a new trial, the quartet—Floyd Rouchie, Lionel Reinhardt, Gordon Bell and Robert Gilmore—were to be released from the Alle- gheny county workhouse today. They had been sentenced to one-to-three year terms.

Judge O. Clare Kent, who presided at the trial, approved bond for the men late yesterday.

Man Who Disappeared Five
Weeks Ago At Clearfield
Arrested In Texas

(International News Service)
PITTSBURGH, March 8.—Alleged to have misappropriated \$1,640 in government funds, Lieut. Cresson Davis, 26, commander of a C.C.C. camp who disappeared five weeks ago from his Clearfield base, has been arrested at Fort Crockett, Tex., and will be returned here, the Fed- eral Bureau of Investigation re- ported today.

Davis, who had charge of C.C.C. camp S-116, near Clearfield, was finance officer of the camp. He disappeared January 28 after cashing the payroll check John Sears, head of the local office of the F. B. I., said.

He was picked up at Fort Crockett when he attempted to enlist in the army as a private, Sears said. He was lodged in the Galveston county, Texas, jail last night to await return to Pittsburgh.

Would-Be Bank
Robber Is Taken

(International News Service)
LOS ANGELES, March 8.—John E. Hopper, 33, sat in a Los Angeles jail cell today and wondered how he—six feet tall and weighing 160 pounds—could be smacked down by a man who is only five feet, four inches tall and weighs but 128 pounds.

The fact that it happened was painful to Hopper, because it re- sulted in his arrest on charges of attempted bank robbery.

The man who smacked Hopper down is W. J. Richards, manager of a branch bank, who resented the way Hopper shoved a gun into his ribs and began herding him around.

When Richards saw Hopper scoop up some currency from a teller's cage, he tackled the bandit viciously and came down on top of him. Richards pummeled Hopper so method- ically that Hopper later admitted to police he was pleased to see them come along and rescue him.

Improvement Plans
Talked For Township

Union Township Civic Club
Makes Progress At Session
Tuesday Night

There were 150 persons at the meeting of the Union Township Civic Association, held Tuesday evening, in the township high school building, and many plans for improvement in the township were discussed and furthered.

It was decided that if approval could be secured from the state, signs regulating the speed limit to 35 miles per hour on West Washington street extension, will be erected.

A report from the sewer committee, revealed that there is already a state approved survey of Union township for the installation of sanitary sewers. This committee was increased and will continue their work in an effort to have a sewerage system built.

Plans were made to have sidewalks built along West Washington street extension, between the end of the city limits to Scotland Lane. This project will be worked into a blanket project of the WPA.

A report from the transportation

committee regarding the proposed extension of the bus service from the city into the township was heard. This committee was in- structed to work out plans whereby the state could be induced to take over Scotland Lane.

This was perhaps the largest meeting of the association, since its organization. A vote was taken to extend the term of the temporary officers of the organization until the next meeting.

This next meeting will be held on March 31, in the school and will be open to all residents of Union township, who are interested in the betterment of their community.

GNCA Office Opens
Later This Week

The Greater New Castle Association plans to open its permanent offices in The Castleton late this week, L. J. Lewis, secretary, an- nounced today. Original plans called for the opening last Monday, but a delay in the arrival of office furniture has forced the change.

Temporary offices of the association in the Lawrence Savings and Trust building will be closed when the hotel offices are occupied.

Says Republicans
Can Win In 1940

Hamilton Sees Victory Contin-
gent On Result In New
York State

(International News Service)
ALBANY, N. Y., March 8.—If the Republicans can carry New York state in 1940 they can elect the next president, according to John D. H. Hamilton, the national party chairman.

Last November's elections restored the Republicans to an equal footing politically with the Democrats. Hamilton told the Republican Association of Rural Counties of New York, a "grass roots" group of the G. O. P. The G. O. P. now can claim 221 electoral votes, Hamilton asserted, and if New York's 45 can be added in 1940, the next president will be a Republican.

Hamilton singled out for special mention the vote rolled up by District Attorney Thomas E. Dewey in last November's election, arousing further speculation over the presidential possibilities of the young prosecutor.

"Mr. Dewey's showing was one of

the outstanding events in the elec- tion which revealed many specta- cular incidents of Republican pro- gress," Hamilton said. "The results were such that both he and you can take great pride in them and they augur well for our prospects in this great Kay state next year."

NEW WILMINGTON WINS; ENTERS FINAL ROUND

'Greyhounds' Top East Pittsburgh By 41-31 Margin

Jack Mercer And "Lighthouse" Minner Lead Attack With 28 Points

4,800 SPECTATORS WITNESS FAST GAME

(Special To The News)

PITTSBURGH, March 8.—Unworking a sparkling second half thrust which thrilled an excited gallery of 4,800 fans, New Wilmington high school's basketball team, flaunting the colors of Section 20, advanced to the final round of the Class B. W. P. I. A. L. tournament by scoring an impressive victory over a fighting band of East Pittsburgh high cagers, Tuesday night, at the Pitt Stadium court. The final score, 41-31.

For the first time since entering the highly competitive tournament, Coach Eagleson's outfit finally found itself. The lanky college towners, after a somewhat slow start, gained momentum and pulled away from their tall foes. In coping their 20th clash, the blue and gold clad horde looked the part of a well drilled combination which did everything according to Hoyle.

Locals Lead

The "Greyhounds" piled up a 7-4 margin as the initial quarter ended. Minner drew first blood with a one handed flip near the foul circle. Shaffer contributed the foul followed by another one handed heave by Minner after grabbing a bullet-like pass from the clever Bob Newton. Dribbling down the floor, Newton shot the sphere to Shaffer, who scored New Wilmington's sixth and seventh markers. Rice started the game by missing two free tosses. He came back seconds later, tipping in a rebound for the initial East Pittsburgh field goal. Gebel connected from mid-court for the other double-decker.

The Smokey City cakers put on a sport which overtook the New Wilmington lads as hostilities resumed. Gebel started the fireworks with a pretty side shot, narrowing the count 7-6. Newton moved along the side and dropped in an equally pretty plop. Johnny Rice sent the Pittsburgh cheering side wild with another side shot, giving his team a 10-6 margin. After Newton missed an Annie Oakley, Captain Jack Mercer snatched the ball on the rebound and tipped it through the cords, giving Wilmington the lead.

"Lefty" Minner got a big hand as he took the sphere, spun around and hooked in a clever left-handed shot. Mercer tallied from under the hoop, giving the locals a 15-10 edge. J. Stefanski annexed a foul, so did Shaffer for the Lawrence Countians. G. Kenhart's one handed flip left East Pittsburgh behind 16-13. Sharp missed a pair of charity throws as the half ended.

Coach John Eagleson must have injected a scoring solution into his proteges during the intermission period. New Wilmington came out a greatly improved team. Bob Newton dropped a pair of double deckers faster than you can say "Jack Robinson." Rice did likewise for the Pittsburghers as the scoreboard showed a 20-13 margin.

"Greyhounds" Minner pulled his pet spin around play, putting the locals ahead 22-17. "Casey" Sharp committed his fourth personal and stepped off the floor. Frew replaced

him. G. Kenhart chalked up a foul try. J. Stefanski was given a ticket to the free line and made good. G. Kenhart almost tore the roof off the spacious auditorium when he tallied from the center, narrowing the gap, 22-21. Mercer potted a field goal from near the center.

Play Is Fast

The schoolboys were stepping around at a dizzy clip during the remaining minutes of the third stanza. G. Kenhart scored from the side putting East Pittsburgh behind by a point, 24-23. Minner widened the gap, sinking a two-player from under the rim. Frew and Newton were awarded free-throws, but missed. Mercer ran up the count, 28-23 with a pretty flip under the cords. O'Connor, who replaced Gebel, made his debut with a long field goal as the period ended.

During the early stages of the final count, the Pittsburghers started a rally which was short lived. After Mercer scored on a spectacular one handed shot after dribbling nearly the length of the floor, Rice rang the bell twice from the charity line and O'Connor followed with a long shot. The score was 30-27 with four minutes left. Minner stepped to the foul line for two throws, converting the first. As the ball started its journey downward, after Minner missed the second try, Mercer leaped in the air and tipped-in a precious two pointer. O'Connor continued his dazzling performance with another field goal from mid-court, leaving East Pittsburgh behind 33-31.

Then started the fireworks. Mercer slipped under the hoop, won the ball and scored. The smiling captain again grabbed the ball under the hoop and registered, giving the locals a 35-31 margin. Frew annexed New Wilmington's three other points from the foul line.

Mercer-Minner Star

It was a well earned victory for the locals. New Wilmington's high scoring twins, Captain Jack Mercer and "Lighthouse" Minner won the plaudits of the throng with as fine a display of basketball as tourney followers have seen. If it wasn't Mercer, it was Minner. It seemed as though the local athletes were playing a game of "follow the leader."

Against the lanky Pittsburgh aggression, Mercer and Minner snatched rebound after rebound and smothered plenty of well aimed passes. Mercer found the draperies for 16 points while Minner ran his tourney total to 44 with 12 more markers.

Bob Newton affirmed himself again. In tourney circles he rates as the sweetest passer in the Class B ranks. His accurate heaves to team mates resulted in several field goals. Bob Shaffer, another clever ball handler, played a prominent role in the triumph. Briefly, the New Wilmington five played a smart ball game all the way and deserved to win.

Johnny Rice and G. Kenhart led the way for the Burghers, annexing 19 points between them. O'Connor, a sub, was a thorn in the path of the locals, getting three field goals.

New Wilmington's next foe will be the winner of the Bridgeville-Monaca game being played tonight. The final clash will probably be played Saturday night.

Jock Not To Quit Football

Plans Indefinite But Scot Has No Intention Of Quitting Game

(International News Service)

HARRISBURG, March 8.—Dr. John Bain (Jock) Sutherland's future was "indefinite" today but the tall, silent Scot had no idea of giving up the coaching of football.

Sutherland, who resigned on Sunday as head football coach at the University of Pittsburgh, addressed the Pitt Alumni association here.

"I certainly am not looking forward to the time when I will hang up the old suit for good," Sutherland commented. Possessor of a football coaching record second only to that of the beloved and immortal Knute Rockne, Sutherland terminated 15 years as grid mentor at the Pittsburgh institution last week-end.

"My one big regret," he said, "when I have to hang up my suit for the last time—it is quite undecided but not likely—will be that I will be separated from the boy who plays football, the boy who means everything to me and whom I understand."

Sutherland, who resigned in the midst of a policy squabble at the university, declared he held "no rancor toward the university."

"Twenty-five (15 as coach) of the happiest years any man could have were spent by me at Pitt," he added. "After much consideration I decided to resign was the best thing to do but I assure you it was a difficult decision to make. It's going to be a tough job to leave."

Announcement was made today that the Renaissance, world's colored champs of the basketball world, will make their second appearance of the season here on Saturday night in The Arena, facing the New Castle Boosters. The game will start at eight o'clock.

Officials of the Booster club booked the noted court wizards because of popular demand. The Renaissance made such a hit here recently that fans have been asking for an "encore." The Renaissance will have the same lineup which put on such a spectacular display of basketball.

Joe Archibald of Providence, R. I., recognized in New York state, as the featherweight champion and Leo Rodak of Chicago, N. B. A. contender number 1, have been matched for a 15-round fight in Providence, April 15.

Charles W. Boswer, regarded as the leading possibility to succeed Jock Sutherland as coach of the Pitt Panthers, prepared at Johnstown high and began his coaching career as an aide to Chalky Williamson, at Grove City, in 1923.

Sam Snead and Ralph Guldahl will play Tony Manero and Lawson Little in the final round of the \$5,000 International four-ball golf championship today at Coral Gables, Fla.

Shenango Valley Sportsmen's association will hold their annual banquet in New Wilmington, Friday night. The banquet will start at 6 p. m. in the Methodist church.

ROD-GUN CLUB WILL GATHER IN VOLANT

Commencing Tuesday, March 14, the Volant Rod and Gun club will meet monthly for programs. Fred S. Flowers, president, announced today. He said the March session will be in the Morehead store in Volant. He extended a general invitation to county men to attend.

The Volant club is affiliated with the Lawrence County Sportsmen's association.

Members of a new softball team will meet at 7:30 p. m., March 10, at the home of Gerald Potter, East Washington street. The team will enter the Junior League. The players are: H. Wehr, B. Kimmel, L. Jock Not To Quit Football

Plans Indefinite But Scot Has No Intention Of Quitting Game

(International News Service)

HARRISBURG, March 8.—Dr. John Bain (Jock) Sutherland's future was "indefinite" today but the tall, silent Scot had no idea of giving up the coaching of football.

Sutherland, who resigned on Sunday as head football coach at the University of Pittsburgh, addressed the Pitt Alumni association here.

"I certainly am not looking forward to the time when I will hang up the old suit for good," Sutherland commented. Possessor of a football coaching record second only to that of the beloved and immortal Knute Rockne, Sutherland terminated 15 years as grid mentor at the Pittsburgh institution last week-end.

"My one big regret," he said, "when I have to hang up my suit for the last time—it is quite undecided but not likely—will be that I will be separated from the boy who plays football, the boy who means everything to me and whom I understand."

Sutherland, who resigned in the midst of a policy squabble at the university, declared he held "no rancor toward the university."

"Twenty-five (15 as coach) of the happiest years any man could have were spent by me at Pitt," he added. "After much consideration I decided to resign was the best thing to do but I assure you it was a difficult decision to make. It's going to be a tough job to leave."

Announcement was made today that the Renaissance, world's colored champs of the basketball world, will make their second appearance of the season here on Saturday night in The Arena, facing the New Castle Boosters. The game will start at eight o'clock.

Officials of the Booster club booked the noted court wizards because of popular demand. The Renaissance made such a hit here recently that fans have been asking for an "encore." The Renaissance will have the same lineup which put on such a spectacular display of basketball.

Joe Archibald of Providence, R. I., recognized in New York state, as the featherweight champion and Leo Rodak of Chicago, N. B. A. contender number 1, have been matched for a 15-round fight in Providence, April 15.

Charles W. Boswer, regarded as the leading possibility to succeed Jock Sutherland as coach of the Pitt Panthers, prepared at Johnstown high and began his coaching career as an aide to Chalky Williamson, at Grove City, in 1923.

Sam Snead and Ralph Guldahl will play Tony Manero and Lawson Little in the final round of the \$5,000 International four-ball golf championship today at Coral Gables, Fla.

Shenango Valley Sportsmen's association will hold their annual banquet in New Wilmington, Friday night. The banquet will start at 6 p. m. in the Methodist church.

ROD-GUN CLUB WILL GATHER IN VOLANT

Commencing Tuesday, March 14, the Volant Rod and Gun club will meet monthly for programs. Fred S. Flowers, president, announced today. He said the March session will be in the Morehead store in Volant. He extended a general invitation to county men to attend.

The Volant club is affiliated with the Lawrence County Sportsmen's association.

Rambling Around World Of Sports

Local little tattle—Announcement that the New York Celtics and Renaissance may tie up here on March 25, was greeted by followers of the cage sport. Incidentally, that performance by the Celtics scored a decided hit with fandom. Davey Banks, midget star, who has been playing the cage game for about 25 years, complimented the local club. They made us hustle out there. The Celtic players looked like they were in a tough ball game.

More local stuff—Lawrence County umpires will get together tonight for their first lesson. Another way of saying that the umpires' school starts at 8:15 o'clock in the Y. M. C. A. By popular demand, the Renaissance, world's colored champs, will appear against the New Castle Boosters, Saturday night, in the Arena. There will be plenty of baseball in the seventh ward this season. Tony Picutta informed the column engineer that at least five clubs from that vicinity will be in action. Even the Wabash Bears are getting ready for the diamond sport. The Lawrence Indies expect to have one of their strongest aggregations in many years. The Indies are already doing a little practicing.

Fresh from Florida—Exuding optimism, Joe DiMaggio said that this is his year, upon reaching the Yankee camp. Ted Williams, of the Boston Red Sox, is the talk of the camps. The former Minneapolis slugger is predicted to be a second DiMaggio. Those Washington Senators, who dished out about \$12,000 for baseballs last year, are trying to shave some of the expenditures by using old pellets during the

spring training grind! It is news that "Dizzy" Dean has sold his gasoline station in Florida. The White Sox are seeing a bright light. "Luke" Appling, their star shortstop, has assured all that his right ankle is O. K. After putting his autograph on a Brooklyn contract, Van Lingle Mungo was so sore he staged one of the most impressive twirling exhibitions of the training session.

A dash of this and that—Information that the Knox-Mann fight last Friday was a loser, to the extent of \$4,000 berries, Sir Mike Jacobs, vacationing in Florida, wired back that he'd be back in Manhattan in no time. Ohio State is enjoying its first big Ten basketball title in 14 years, thanks to Michigan for winning Indiana, Monday. This year's hold-out session is a fadeout. Seems as though the wrong guys are holding out, players who mean little as far as the public is concerned. Many of them should thank their lucky star for getting some of those offers. Practically every paper in Western Pennsylvania headlined Sutherland's resignation at Pitt. The yarn was played up bigger than any other sports story in many years.

Facts for sport fans—Although Kayak II, winner of the Santa Anita Handicap, is actually a 3-year-old, he is listed as a 4-year-old nag in America because, under racing regulations, he added six months to his age by coming to this country from Argentina. To the fans who have inquired regarding Tony Galento's record: Yes, Galento was knocked out by Al Gainer in 1936, in the fourth round. Record books list no other kayakers against the "bar keep." William Howard Taft, late president of the United States, was a real baseball enthusiast. He went as far as promoting amateur and professional ball.

Two Aquatic Teams Banned

Allentown And Erie Academy
Out Of Championship Meet

(International News Service)
HARRISBURG, March 8.—Two Pennsylvania high school swimming teams today were barred from participation in the state championships at State College on Saturday, March 11.

Allentown, Wicht said, violated the association ruling against high school teams participating against college freshmen teams by engaging in a swim meet with the Franklin and Marshall college freshmen swimmers.

The Erie school, he added, lost its right to participate in the cham-

FROM ME TO YOU
By MESEALL.

We have here before us this morning a communication from a group called the New Castle Junior Garden Club. They tell us about the work they have started in Gunton Park. The members of this club all come from the North Hill Section and they would like to make Gunton Park as noticeable as some of the other parks. Their communication goes as follows: "The club was formed last summer for the purpose of reconstructing, improving, and making Gunton Park better known to the citizens of New Castle... Several members of the club appeared before Mayor McGrath last week and asked for his cooperation in apprehending vandals who caused several hundred dollars worth of damage to the Park in the past few years. Mayor McGrath promised his full cooperation. So far, as the result of the work of the club members and the Advisory Board, the following work has been accomplished: complete clearing out of about five acres of dense woodland by NYA workers, two new nature trails formed, painting of woodwork on stone shelter house, about ten wooden bridges built or repaired, seeds and shrubbery planted throughout the park, and several bird feeders placed in the park... Since the financial condition of the club is such that it is impossible for them to buy the necessary shrubs, bulbs, plants, and so forth that will be needed in the planting of Gunton Park, any donations in the form of the above will be appreciated. If anyone wishes to contact this club they may do so by dropping a card to the N. C. Junior Garden Club, 408 Norwood Avenue."

In these days of Isms it might be appropriate to recall that the late president, Theodore Roosevelt said, "There is no such thing as a hyphenated American."

Last night the ladies of the N. C. C. A. gathered for the purpose of starting their Annual membership drive. Their hope is to have over 1000 members within the time allotted. So if you can help them out... keep fit.

As one goes through life and contacts... it's no wonder that the weather eye is always peered for someone who might take advantage of you. Several folks have had their eyes opened up this past winter... it's a shame that some folks can't be trusted with other peoples money. It's bad for them, their families and the community as a whole. It's so good to feel free.

Stock Market Is Shade Higher

Trading Of Morning Is Extremely Sluggish However

By LESLIE GOULD
International News Service
Financial Writer

NEW YORK, March 8.—The stock market moved a shade higher today after initial hesitancy, duplicating the slow advance of the preceding session. Trading again was extremely sluggish.

Rails, chemicals, motors, can stocks, rubbers, and mail orders were prominent. Gains in steels were limited with U. S. Steel ruling slightly under last night's final quotation. American Telephone rose over a point. Others to show gains of a point or more were American Can, Continental Can, U. S. Rubber, Santa Fe, Du Pont, Westinghouse Electric and Chrysler.

ELLWOOD CITY, March 8.—Plans for a number of activities were arranged by members of the Wayne W. C. T. U. on Tuesday evening when they assembled at the home of Mrs. Floyd Worrell on the Ellwood-New Castle road for the March meeting with 13 members and two guests in attendance. After the devotional period, Mrs. J. M. Houk presided at the business meeting and it was decided to send a letter of commendation to Governor James for proposed temperance reforms. "Fundamentals of the Temperance Problem," a study book, will be purchased for union use.

Mrs. Jane Friday and Mrs. R. N. Brown were appointed a literature committee and Mrs. Arthur Wehman and Mrs. Floyd Worrell as the sign committee. The book, "Pioneer Girl," will be placed in the Wayne township schools. A remembrance will be sent to Mrs. Roy Meehan, president of the union, who has been ill for many weeks.

The program of the evening consisted of an informative discussion on what dry organizations are doing to place proposed reforms before the state legislature by Mrs. Thomas G. Berger. Mrs. J. M. Houk contributed statistics showing how many townships of the community had voted on the liquor franchise, and concluded the program with a touching reading entitled "The Faith of a Little Child".

Members were invited to meet again on Tuesday, April 4, at the home of Mrs. R. N. Brown on the Hollow road.

Little Bits Of This And That About Ellwood

In these days of super speed, the revival of an "old-fashioned" custom was called to mind on Saturday when 10 men equipped with pick and shovel, assembled in Wurttemberg Heights and spent the day in excavating a 24 by 30 foot cellar for one of their buddies. Arduous tasks always become less of a drudge when tackled by a group rather than an individual and from the noticeable gaiety and work accomplished by the group, the task apparently was considered a pleasant diversion.

Much of the heavy traffic through New Castle and Wurttemberg during the past several days is due to the detour on the Perry highway, caused by the improvements being made to the highway in Portersville. Constant freezing and thawing have left their mark on the Pinchot type roads in this section, which are quite rough and full of holes and ready for the state highway resurfacing gang.

Pleads for Guam Defenses

Admiral William D. Leahy points to Guam as he urges upon Senator David Walsh, of Massachusetts, the need for Senate approval of the disputed \$5,000,000 appropriation for improvements in Guam's harbor. Speaking to Naval Affairs Committee the Chief of Naval Operations called Guam "of inestimable value" as "a possible defense base."

Mrs. William Kerr New President Of Presbyterian Class

ELLWOOD CITY, March 8.—Mrs. William Kerr was elected as president of the Welcome Bible class of the First Presbyterian church on Tuesday evening when members gathered in the church dining room for the monthly dinner meeting.

Other officers chosen to serve with Mrs. Kerr are: Vice president, Charles O. Hazen; secretary, Mrs. Eric B. Yahn; treasurer, Mrs. J. A. Evans, and assistant secretary, Mrs. Ford Dadds. Mrs. Fred Jackson was chairman of the nominating committee.

The meeting began with the serving of a delicious dinner at 6 o'clock with Mrs. Harriet Bartel, Mrs. Rae Chambers and Mrs. Jack Callen as the hostesses. A diverting social hour followed under the direction of Mrs. Fred Jackson and a committee.

On Wednesday evening, April 2, the next meeting will be held at the church.

PARLETTE CLUB AT DAMBACH HOME

ELLWOOD CITY, March 8.—When members of the Parlette club were pleasantly entertained by Miss Dorothy Jane Dambach at her home in Fourth street for the bi-weekly meeting, Misses Eleanor Kimes and Gladys Young were special guests.

Bridge occupied the hours in a delightful manner with Misses Blanche Means and Katherine Menold being the first place winners. After the hostess served a delicious lunch, members departed to meet again on Monday evening, March 20, at the Means home, in Lawrence avenue.

Two Killed as Plane Hits Water Tower

Two men, pilot and passenger, were killed when a small monoplane crashed into a water tower (seen in background) on outskirts of East Northport, N. Y., bounced off and hit a telephone pole and finally smashed to pieces in a grove of trees as shown. The plane was so badly wrecked that rescuers had to chop through the fuselage to extricate the bodies. The aviator was identified as Al Beech, Roosevelt Field, N. Y., pilot. (Central Press)

LITTLE ORPHAN ANNIE—STOKING THE BAWLER

Too Unconventional for Jersey

Socialite Ellen Tilton Holmsen, once presented at the Court of St. James's, has been "deported" from New Jersey, according to Police Chief William E. Powell of Rochelle Park, because she attracted too much attention going about clad only in pajamas and sandals. She is pictured here as she appeared while shocking Hollywood several years ago by sun-bathing on her lawn there. Miss Holmsen, who had been residing in Maywood, N. J., took up quarters in Flushing, N. Y., after her "exile."

Fire Calls Sent By Telephone Often Confusing

Similarity In Street Names And Duplication Of Streets Is Puzzling

CITIZENS URGED TO GIVE LOCATION

"My house is on fire, come quick! Goodbye!"

Sometimes this is the only information city firemen receive when some hysterical householder discovers his home ablaze, and the only thing the firemen can do is sit and fret until the folks get tired of waiting for the fire truck to arrive and send in another call or else go to a box and pull an alarm over the automatic system.

If you telephone an alarm to the fire department, make certain that the firemen know where they are supposed to go to, before you leave the phone. Firemen aren't mind readers, is the warning issued by Fire Chief A. P. McIlwain.

Chief McIlwain also calls attention to another matter which sometimes proves confusing to the firemen. That is a similarity in the sound of street names, and the fact that there is a great amount of duplication of street names in the city and in immediate territory, although many changes have been made to remedy this from time to time.

For instance, the sound of Race street and Ray street; Duquesne and DuShane; Waldo, Water and Wal-

ter; Arlington and Darlington; Jones and John; Wallace and Walls; Mable and Maple, is just about the same when it comes at one excitedly over the telephone.

There is a Fern street in the Oakland district and one in Croton, a Shady avenue and Shady side; Berger street and Berger Place; Crawford avenue and Crawford Terrace; Francis street and Francis Place; Grandview avenue and Grandview Way; a Ridge street and two Ridge avenues; Stewart street and Stewart Place; two Union streets, and a Wood street and Woods street; and two Stanton avenues.

Be Sure Of Locating House
So if you happen to live on any of these above-named streets or thoroughfares and your home takes fire, make sure that you get the firemen straightened out as to the exact location if you telephone in for help. They may go to a section of the city just opposite from where they should have gone.

Then there are a number of streets, which are broken up into sections by railroad tracks, industries, streams, etc. Beaver street, for instance, is divided into three sections. There is our section which runs south of Washington street to the Kline Lumber company, is closed at the railroad spur, then opens on the other side and runs to Neshannock Creek, then jumps again down to Sheep Hill, at Terrace avenue and runs on into Taylor township. North Beaver street runs up over the hill from Washington street to Wallace avenue, then jumps across Wilmington avenue and starts i. again at Edison avenue, where it runs for one block, containing about ten houses.

Ashland avenue, in the Seventh Ward is broken up by a number of obstructions. South Jefferson is the same. It runs into Moravia street at the Pennsylvania Engineering works, then jumps across to Division street, where it continues south to the city limits.

So don't blame the fire department altogether when you telephone in an alarm. You might have forgotten to give the street name or to have given confusing directions. Make sure you are right and they understand you, before you leave the phone, is the warning issued by Chief McIlwain.

Income Tax Filers Hustle Up Returns

Deadline On March 15 Only
Week Away; Long, Aides Busy

New Castle residents today were warned that the federal income tax reporting deadline is rapidly approaching—it comes Wednesday, March 15, a week from today.

The local income tax office on the second floor of the Federal building, in charge of Deputy Collector James R. Long, was "doing a pretty good business today." Yesterday it was crowded most of the day, Long said.

The deputy collector and his aides believe a large part of the last-minute jam that usually develops will be avoided this year because the office inaugurated its schedule of "assistance hours" earlier than in the past.

For the accommodation of filers, Long again announced the office hours today as 9 a. m. until noon and from 1 to 4:30 p. m. The office will be kept open on March 15 until midnight, when all returns must be in to avoid penalties.

Peace In Europe Not Improbable Says Masaryk

(International News Service)
PITTSBURGH, March 8.—Peace in Europe is not an improbability, Jen Masaryk, Czechoslovak minister to London during the Sudeten crisis, said here today.

"Europe is an old established concern, and has withstood a lot of strains and stresses in the past," he explained. "With proper statesmanship, Europe can be brought through the present crisis without war."

Masaryk warned, however, that the piecemeal partitioning of the old country could not go on indefinitely without tragic consequences. He said:

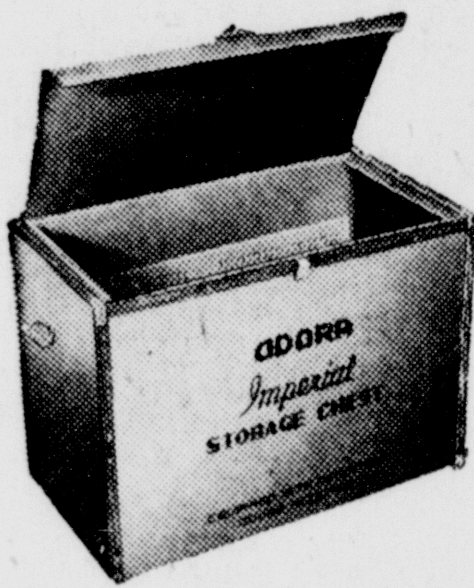

"If they cut the dog's tail off by inches, the dog's liable to go mad, but if they decide where the trouble is, and where the tail ought to be cut, and then perform the operation all at once, and under proper anesthetics, it'll be a success."
